Panel Members

TBD

Introduction

So what is this IP Multimedia Subsystem (IMS) thing?

What is this IMS thing?

Panelist Presentations

TBD

Question 1

Question 1

What kinds of new, revenue producing services has IMS enabled?

Question 2

Question 2

Are you looking at IMS as a control plane for wireline services?

Question 3

Question 3

What kinds of IMS-related operational issues have you experienced? More specifically, is the complexity of IMS an issue for you in your network? What has been the affect on OPEX, if any?

Questions?

Thanks!
